

THE FLOORING SOLUTION FOR YOUR  
**FITNESS FACILITIES**  
FREE WEIGHTS TRAINING

# OUR FLOOR FOR FREE WEIGHT TRAINING & WEIGHT LIFTING

Robust and protective:

**REGUPOL puts your customers on the best footing: Our fitness floors are slip-resistant and comfortable – a safe and secure base for training with dumbbells and free weights.**

However, our floor doesn't only support the athletes but protects the sub-base as well because, in free weight training or weight lifting, floor structures need to withstand hefty impacts. Our **REGUPOL** everroll fitness floors are incredibly resilient and impact resistant.

Do you have acoustic challenges to deal with? When it comes to impact sound, we'll be happy to develop the right acoustic solution on a project-specific basis.

## **Rolls**

Resilient | protect the sub-base | extremely slip resistant | standard thicknesses: 8 to 12 mm

**Our products: REGUPOL everroll classic, REGUPOL everroll ultimate**

## **Multi-Layer System Build-Up**

Individual selection of protective function and comfort levels | project-specific solutions for acoustic requirements

**Our products: REGUPOL everroll impact, REGUPOL sonusfit series**

AVAILABLE
