

# THE FLOORING SOLUTION FOR YOUR **FITNESS FACILITIES** ICE RINKS

# OUR FLOORS FOR ICE RINKS

## Robust:

Ice rinks are places where young and old can meet. Regardless of whether the enthusiasts want to learn or improve their skating, play ice hockey or curling, the focus in ice rinks is on the fun of movement on ice. Sliding and gliding around is what you want to do on the ice itself, but not on the floors around the rink. Our **REGUPOL everroll alpine** flooring makes sure that no one slips or slides unless they really want to.

As borders around the actual ice surface, on walkways or in box office foyers and changing facilities, they provide the slip resistance and underfoot stability that visitors need. They are robust and resilient. Our flooring for indoor ice rinks is designed to make walking on the various surfaces a very pleasant experience. As things can get very noisy in ice rinks, especially in the highly frequented areas, the acoustic properties of our floors make sure noise levels don't get out of control.

### Rolls

resilient | slip-resistant | comfortable | available in  
8 mm and 12 mm thickness

**Our products: REGUPOL everroll classic,  
REGUPOL everroll ultimate**

AVAILABLE

# COLOURS
